

## QUALITY POLICY

As an integral basis for the stability of the company and its further development, we have adopted the principle of maintaining and continuously improving the quality system throughout the entire management process.

We perceive and implement quality through planned (established) objectives and goals of the company KOH-I-NOOR MACHINERY as and KOH-I-NOOR RONAS s.r.o

The quality policy thus follows the vision of KOH-I-NOOR RONAS s.r.o, which is approved by KOH-I-NOOR MACHINERY as and is defined as follows:

**"To be a recognized and sought-after manufacturer of precision tools and plastic moldings with high added value and the best customer ratings."**

**In accordance with this vision, the management of KOH-I-NOOR RONAS sro establishes the following quality policy:**

1.	To produce quality products with high utility value and provide comprehensive services through a process of continuous improvement have consistently contributed to higher customer satisfaction. We want to be proud of everything we offer our customers.
2.	To strive to make important global companies our customers and to contribute to their technical and economic development through our good work
3.	To develop and enhance the contribution of all employees by placing a constant emphasis on the education and expansion of the capabilities of each employee. To strive to achieve a high level of education and expertise in all areas of activity.
4.	Recruit and delegate employees for solutions and decision-making in areas where each of us can contribute to the efficient operation of the company.
5.	As part of mutual awareness, support communication between employees in the company and strive to ensure that everyone knows what is happening in our company, what our intentions and goals are, and how we are fulfilling them.
6.	Not sticking to the current way of doing things. Seeking new solutions in all our approaches and applying continuous improvement to existing processes.
7.	The foundation of our business is people and their ability to create and embrace new ideas and take full responsibility.
8.	We are committed to complying with relevant legal requirements and other requirements to which our organization is subject and which arise from the Context of our company.

KOH-I-NOOR RONAS s.r.o supports ethical behavior, transparency and accountability throughout the supply chain. The quality policy provides a framework for setting measurable goals. The quality policy is communicated to all stakeholders, is publicly available and regularly reviewed by the company's management.
